### How to Use Our Air Deal Notices

Some KEY Questions you should Ask and Answer before confirming your booking:

- Do you want to travel with a full-size carry-on bag? ← *This is NOT included in some Basic Economy Fares.*
- Might you need to change your ticket after purchase? ← *Basic Economy doesn't allow changes. You'd need to purchase travel insurance and/or a Standard Economy ticket if you might need to change your ticket.*
- Do you desire a standard pre-reserved seat for \$0? ← *This usually requires you purchase a Standard Economy fare.*
- Do you desire a minimum size seat? ← *Check the airline/aircraft on Seat Guru [www.seatguru.com](http://www.seatguru.com) for seat sizes*
- Would you pay more for increased legroom? ← *Check to see what fare or upgrade options allow this! We'll sometimes share up-grade/ add-on options in the deal notices.*

This concludes the basic guide to help you fine tune your search and booking actions based on the Flight Deal information we provide before in our Air Deal Notification Process.

In other guides or videos we'll go into more detail and share additional information to help you better determine flight value – more quickly search for flight deals and SAVE more money on your flights!
